34

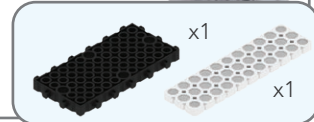

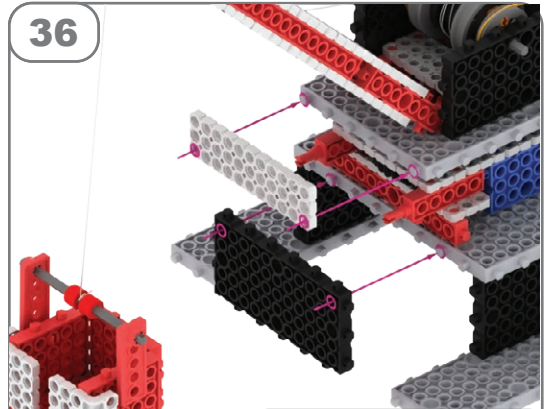

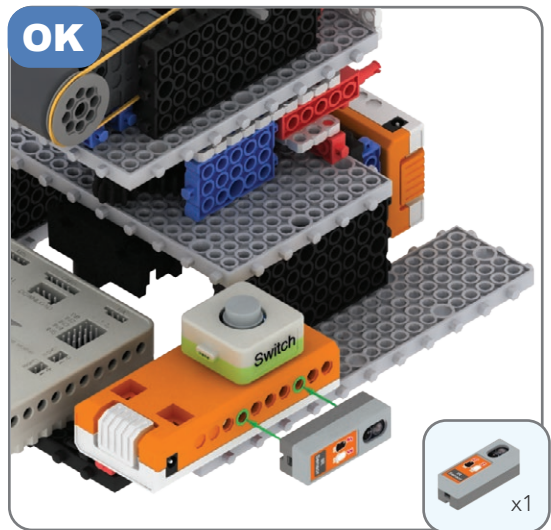

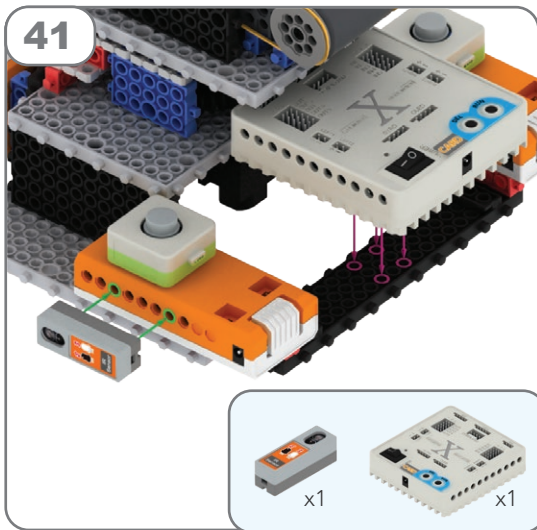

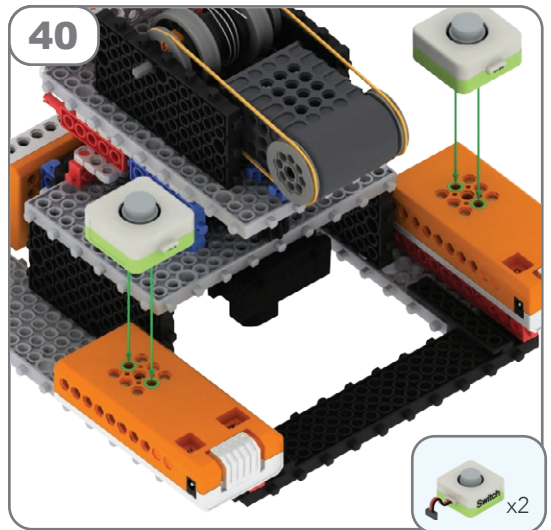

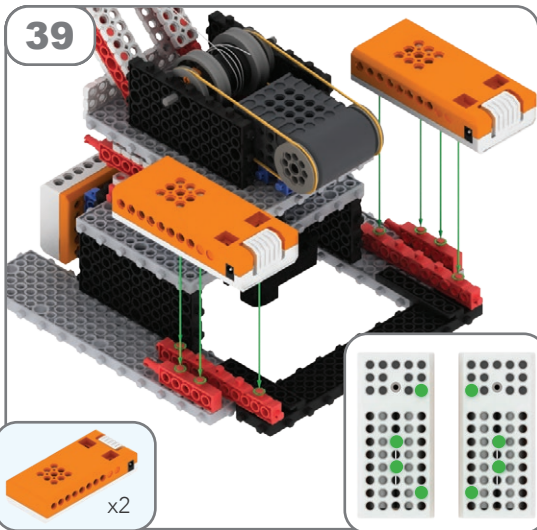

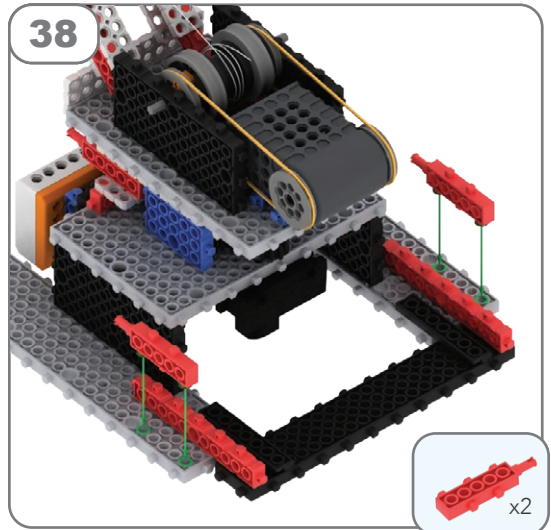

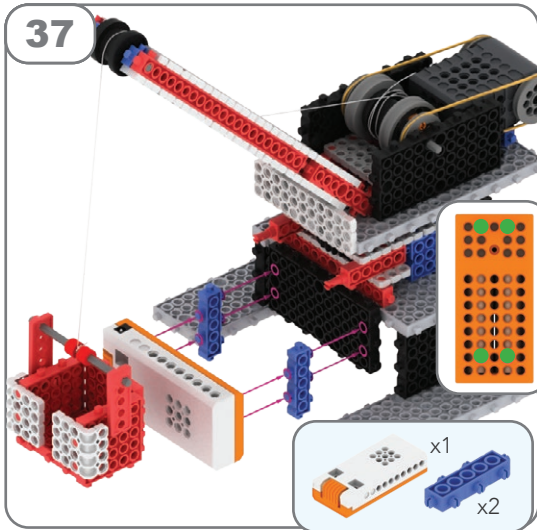

35

Treci cablul peste scripetele de sus și fă un nod la un capăt al coșului și de cealaltă parte la scripetele de jos

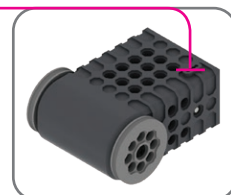

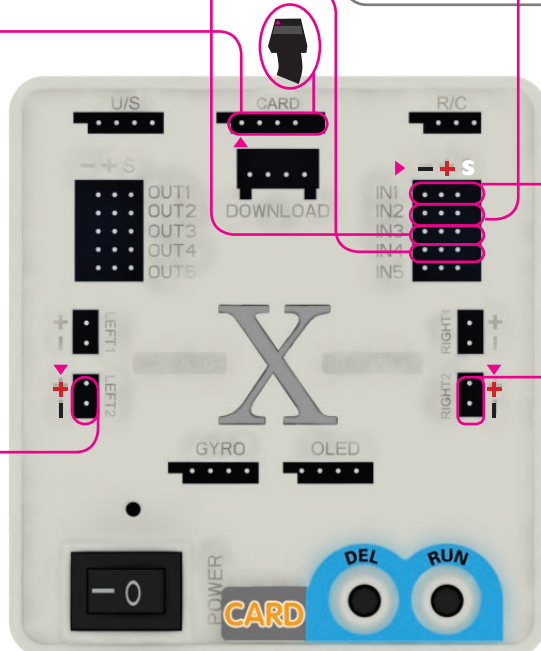

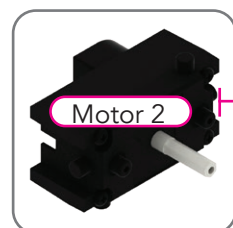

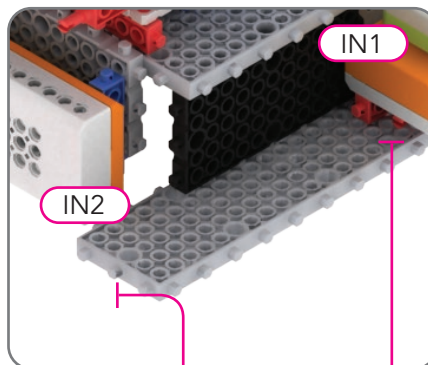

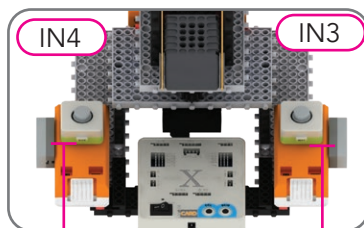

36

Cum se conectează?

Triunghiul ▲ trebuie să corespundă cu ▲ de pe conectorul de cablu al cititorului de carduri

Pentru o descriere mai în detaliu, consultă secțiunea „Sfaturi pentru o bună asamblare” din revistă.

În practică

Consultă secțiunea „Învață să programezi” din revistă: acolo vei găsi o explicație mai detaliată și mai multe exemple de programare.

0

- 1.Cycle start (all time)
- 2.IF-IN1
- 3.Left motor 2 counterclockwise rotation
- 4.IF-IN2
- 5.Left motor 2 clockwise rotation
